Response	Number of Responses	Issues Identified
Completely opposed		
Accept if many features were different		
Accept if one or two features were different	1	- Do not want access via Waterer Road
I support this proposal	2	

1. **Road access**

   Administration's Response:
   The developer intends for future development to front James Hill Road and is placing the parking along Waterer Road to divert traffic away from that entrance. The City of Regina does not regulate which of the two roads their access may be from. The proposed driveway meets all technical standards.
