Minutes of the meeting held on February 13, 2014

Administration Reports

PW14-4 Waste Plan Regina - Phase 2: Multi-family recycling

Recommendation

1. That the City adopt a multi-family property recycling program that will:
 - Require all multi-family properties not currently receiving recycling service from the City to provide their residents with an on-site recycling program;
 - Require these properties to provide on-site storage facilities for recyclable materials and an arrangement for collection and disposal of the recyclable materials to a materials recovery facility;
 - Stipulate recyclable materials to be at minimum the same as available through the single-family curbside recycling program;
 - Require the on-site service be managed by the property owner using a private sector service provider, and
 - Take effect January 1, 2015.

2. That the City Solicitor amend The Waste Management Bylaw, 2012, No. 2012-63 (the "Bylaw") to:
 - a. Require all residential non-designated properties to have a waste management plan that includes recycling service;
 - b. Require such waste management plan be in place and operational on or before January 1, 2015;
 - c. Require all residential non-designated properties to have recyclable material storage facilities, separate from garbage storage facilities, sufficient in size to store all recyclable materials generated at the non-designated property considering the volume of recyclable material generated on the non-designated property;
 - d. Define the recyclable material to be collected as part of the waste management plan to be, at minimum that as set out in the Bylaw;
 - e. Require an arrangement for regular removal of the recyclable material to a materials recovery facility;
 - f. Require all residential non-designated properties to remove recyclable materials from the property in the same manner and frequency that the recyclable material storage area meets the same

Office of the City Clerk

- g. Require every owner of a non-designated property to provide the Bylaw Enforcement Officer with a copy of the owner's waste management plan; and
 - h. Require any contracts and/or invoices related to a waste management plan upon be provided to a Bylaw Enforcement Officer upon a request from a Bylaw Enforcement Officer.
3. That Administration brings forward a report in the fall of 2015, reviewing the Big Blue Bin (BBB) program and its relevance alongside a fully-implemented City-wide residential recycling program.

PW14-5 Edward Street Sewer and Drainage Recommendations PW13-14

Recommendation

1. That the scope of pre-design work planned for Drainage Area #14 in the 2014 Utility Capital Budget be adjusted to remove the lower priority Area #14A and add the adjacent Area #11, (see Appendix A) which includes the study area evaluated in this report;
2. That a decision regarding drainage system improvements on Edward Street be deferred until this pre-design work is complete in late 2014;
3. That a decision regarding wastewater system improvements be deferred by eight months to complete the calibration of the wastewater system model to determine the most effective overall system solution;
4. That a Sanitary Sewer Backup Prevention Subsidy Program ("pilot program") to subsidize backup prevention solutions be implemented as outlined in Appendix B for pre-identified residents within the study area who have experienced sewer backups which may be due to overloaded sanitary sewer lines, up to a maximum pilot program cost of \$105,000.
5. That item PW13-14 be removed from the list of outstanding items.

Adjournment
