

Hello

As a resident of Westhill Park, I am very concerned about the City's plans for 9th Avenue North. Already there is a lot of traffic and once this is twinned, it will become worse. What are the city's plans for us residents who live here? The stretch between Courtney and Pinkie is sometimes used for racing and I fear that this will increase. As well, noise will increase for us. Could 9th Avenue be moved north away from the subdivision?

Can you please tell us residents what your plan is to control noise?

Please add my request to the public agenda meeting on April 20th. Thank you

Brian and Val Lloyd
