**Summary of Comments**

- I am asking Councillors to support this motion because the content has been developed with consultation from 2SLGBTQIAP+ communities in Regina.
- Other municipalities across Canada are already engaging in the work that this proposed report would discuss at lengths.
- Engaging in a comprehensive report to identify what is possible for our city, and what communities would benefit from is an important first step before jumping into enacting initiatives that are not informed by our realities in Regina.
- As a community organizer and consultant who specializes in 2SLGBTQIAP+ communities, I have worked in supporting 2SLGBTQIAP+ communities at a municipal, provincial and national level, and I am confident that the topics identified in this motion are important topics for the City Administration to review and provide a report on.
