

I support the motion before council that would ban commercial development in Wascana Park. The motion would reinforce the Capital Commission's own guidelines prohibiting commercial development in the park.

Conexus is providing a disturbing intrusion into a green space that has been an oasis and lauded by citizens and visitors both as a jewel of the city.

Conexus and Brandt not only represent a jarring and discordant intrusion into the park, but will change traffic flow with the addition of hundreds of employees needing car access to and from work.

Please support this motion and take a stand against what I fear will be a regrettable change to our park that we will never be able to undo.

Respectfully submitted,

Donna Holmes
