

# City of Regina Multi-use Pathway Map

Multi-use pathways are intended for use by cyclists, walkers, runners, skateboarders, roller skaters/bladers and skiers.

## ON-STREET BICYCLE ROUTES

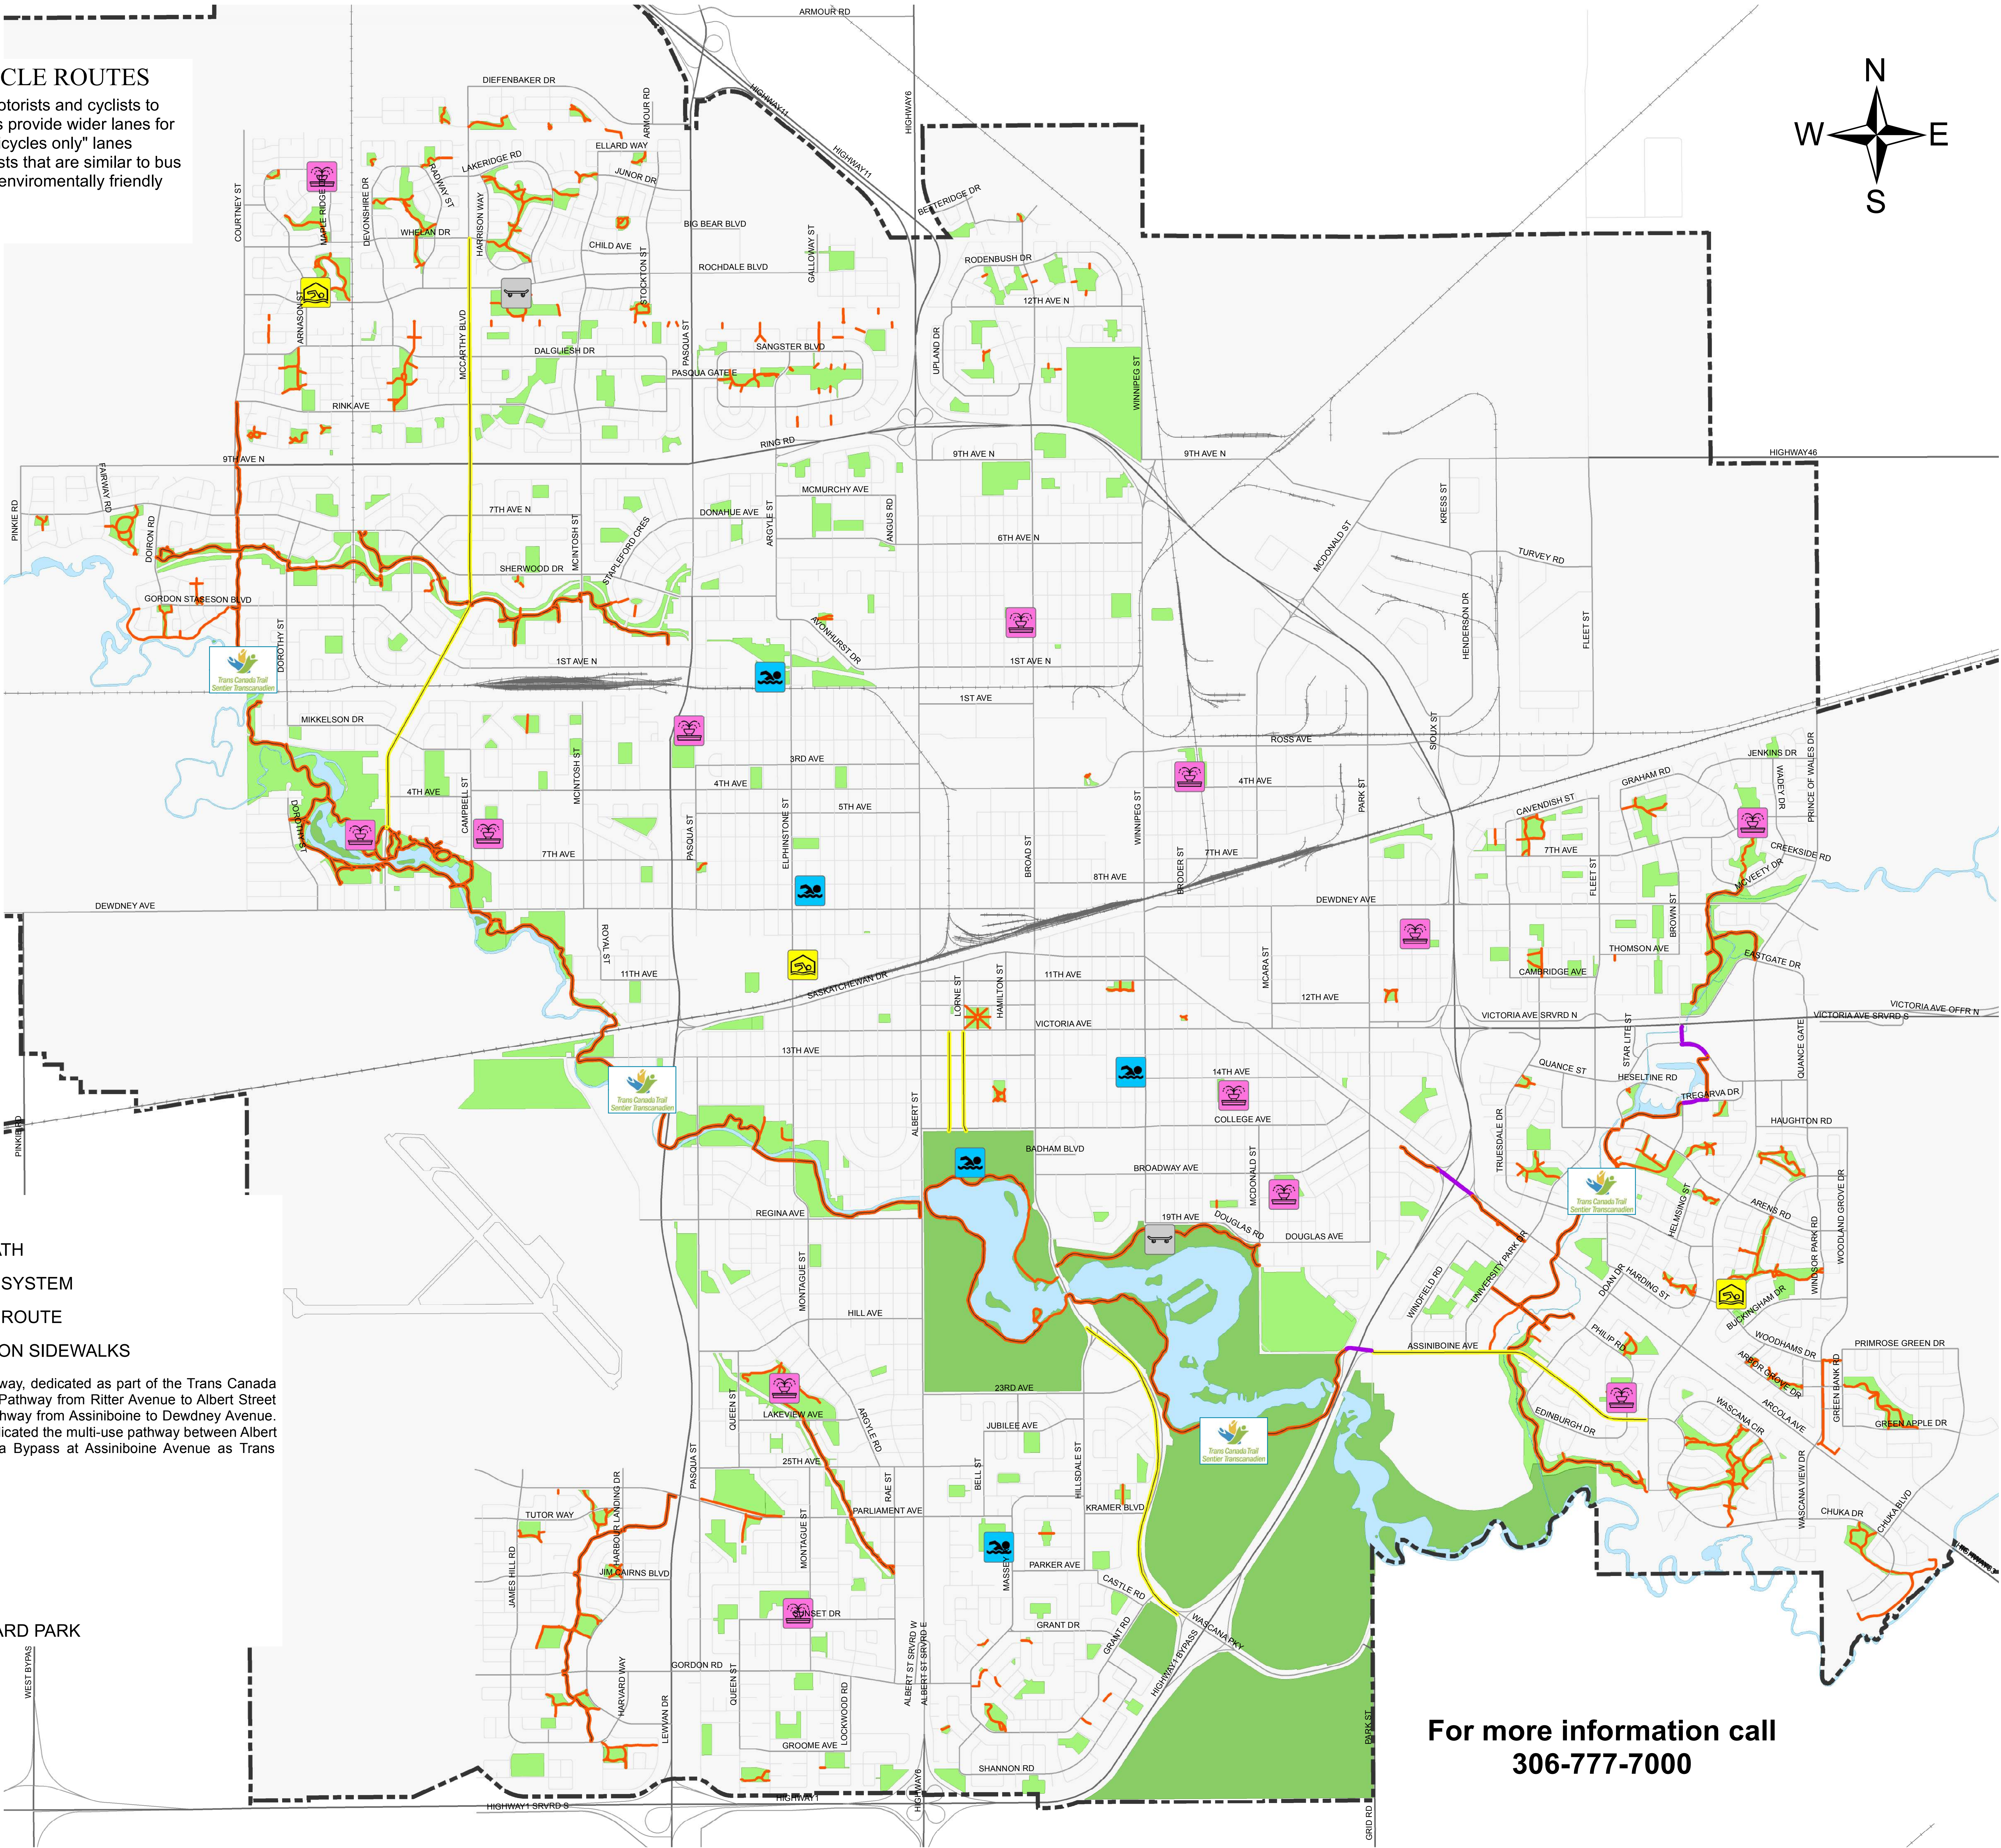

The bicycle routes encourage motorists and cyclists to "share the road." "Shared" lanes provide wider lanes for parked vehicles and cyclists. "Bicycles only" lanes provide dedicated lanes for cyclists that are similar to bus lanes. These routes provide an environmentally friendly transportation alternative.
