

I would like to do a presentation on Dec. 10th 5:30/17:30 at the city council meeting.

My position will be to appose the closure of the Maple Leaf pool and to fix it or upgrade it. Anything at all just which ever works best. But mainly one way or another keep the Maple Leaf pool open.

To my knowledge Maple Leaf Pool is the only public swimming pool practically in the backyard of a family subsidized low income housing complex(s) on 13th avenue.

Also many low income children from many First Nations and other non-first nations live in the area and enjoy the pool the way it is right now.

Leave things well enough along. It is the greatest place for a public swimming pool to be. Lets all work hard to see it stays there.

For some of the children attending the Maple Leaf Pool, they are the second (maybe even third) generation in their families to enjoy it. Please don't take it away from those children now using it so that their grandchildren may swim where they swam last summer!!

It is highly doubtful that the hundreds of children that use Maple Leaf pool will all be prepared one way or another or wealthy enough to get themselves down to the pool daily in Wascanna. And some children swim daily in Maple Leaf.

Anyway with the speed that the Wascanna Park is being given away to commercial enterprise how long will the Wascanna pool even exist in the first place?

Splash Blast for Maple Leaf Pool
