

Victor Robertson,

Good evening,

Maple leaf pool is important to me because I love to swim. I come from a poor family and we never have any spending money to go to other pools. I started swimming there when I was 6 to 7 years old. I am 15 going to be 16 in 3 days. I don't want the pool to go. It means a lot to me. I have so many memories there of the great times my brothers and I spent together. We go every summer and I don't want this won't be our last swim. The pool is close to me. It would be a 4 to 5 minute walk and if it's going to move it it's not going to be easy to get there for me or many of my friends.

I think the city should fix the pool. It will cost more to break it then fix it and look at the elderly home next door: Where they going to park if you're going to take it down? Moving it. At the pool there is about 100 to 200 every day depending on how hot is it. Where are theses people going to if you're taking it down?

Thank you!
