

BYLAW NO. 2019-20

THE SIGN BYLAW

THE COUNCIL OF THE CITY OF REGINA ENACTS AS FOLLOWS:

Part I – Interpretation

Purpose

1 The purpose of this Bylaw is to create a system of permits for signs and to regulate the location and construction of signs for the purposes of safety, amenity of neighborhoods and the use of public places.

Authority

2 The authority for this Bylaw is section 8 of *The Cities Act* and section 46, clause 49(k), section 51, and clause 52(3)(k) of *The Planning and Development Act, 2007*.

Severability

3 If any section, subsection, sentence, clause, phrase or other portion of this Bylaw is for any reason held invalid or unconstitutional by any court of competent jurisdiction, that position shall be deemed a separate, distinct and independent provision and the holding of the Court shall not affect the validity of the remaining portions of the Bylaw.

Interpretation

4 Unless otherwise stipulated, any reference to legislation, bylaw, code or standard shall mean the most recent version of the code or standard having effect at the time at which it is applied.

Figure 1: Examples of Sign Types

Application

- 6 No person shall erect, display, alter or allow or cause the erection, display, or alteration of any sign within the City on publicly or privately owned lands except as permitted under this Bylaw.
- 7 Without limiting the generality of section 6 no person shall erect, display, alter or allow or cause the erection display or alteration of any sign or part of a sign within the City on or above any public property or utility structure except as authorized by Part V of this Bylaw, or where prior written approval of the City is obtained and an agreement entered into with the City pursuant to any other Bylaw of the City, or approved by City Council or the City Manager or designate in accordance with *The Regina Administration Bylaw* No. 2003-69.
- 8 Every sign owner shall be responsible for compliance with this Bylaw.
- 9 No permit or license issued pursuant to this Bylaw, no approval of plans or specifications of work done or to be done in connection with a sign or any inspection of such work shall relieve the sign owner from responsibility for obtaining any other permit, the carrying out of the work, maintaining the sign in accordance with this Bylaw, or any other law, regulation or bylaw or compliance with any other law, regulation or bylaw.
- 10 Where any sign is affected by more than one requirement of this Bylaw, all requirements apply and where there is any inconsistency, the requirement(s) that are more restrictive shall prevail unless specifically stated otherwise.

Legally Non-conforming Signs

- 11 Signs which were legally erected, displayed or approved by the City at the time of the coming into force of this Bylaw shall be considered legally non-conforming signs and remain subject to the laws in force at the time of construction, or if altered, the most recent alteration unless:
 - (a) the sign is structurally altered, re-built, enlarged or re-located, including screen replacement on a digital sign;
 - (b) the sign is destroyed or damaged by fire with damage exceeding 75 percent of the value of the sign; or
 - (c) the building containing the use to which it is accessory is demolished or destroyed to an extent exceeding 50 percent of the value of the building.

- 12 If a sign is required to be removed pursuant to section 10 then it must be removed no later than 30 days following the damage to the sign or building which rendered the sign no longer legally non-conforming.

Part II – Sign Permit

Authority

- 13 The authority for this Bylaw is section 46, clause 49(k), section 51, clause 52(3)(k) of *The Planning and Development Act, 2007*.

Interpretation

- 14 A sign permit issued pursuant to this Part shall constitute a development permit, as defined by *The Planning and Development Act, 2007*.
- 15 Unless a sign permit is expressly not required pursuant to this Bylaw, and notwithstanding any provision of *Regina Zoning Bylaw, 2019 (No. 2019-19)* exempting signs from the application of that bylaw, no person shall erect, display, alter or allow or cause the erection display or alteration of any sign within the City of Regina without first obtaining a sign permit in accordance with this Part.
- 16 A sign permit is not required for the following signs as defined in this Bylaw, unless the sign has any of the characteristics listed in section 17:
- (a) Election signs;
 - (b) Construction signs;
 - (c) Real estate signs;
 - (d) Garage/yard sale signs;
 - (e) Directional signs;
 - (f) Address designation signs;
 - (g) Government signs;
 - (h) Window signs;
 - (i) Sandwich board signs;
 - (j) Historic markers; and
 - (k) Banner signs.
- 17 Notwithstanding government signs, the signs noted in section 16 require a sign permit if they have any of the following characteristics:
- (a) exceeds 3.0 m in height measured from grade to the top of the sign;
 - (b) exceeds 3.0 m² in area on any one side;
 - (c) exceeds 115kg in weight;
 - (d) project above the top of a roof or parapet;

- (e) supported by or fastened to a parapet wall;
- (f) sandwich board signs greater than 1.52 metres in height or 0.75 metres in width; or
- (g) digital or illuminated signs.

18 Any sign type not listed in section 16 requires a sign permit.

Permit Application

19 Every application for a sign permit shall include the following:

- (a) a completed permit application in the form as required by the development officer;
- (b) a site plan showing the property lines or other boundaries of the lot upon which the sign will be erected, as well as the placement of the sign in relation to any buildings on the lot and/or adjacent lots;
- (c) where a sign is required to be structurally designed by an engineer pursuant to the requirements of this Bylaw, the complete drawings and specifications covering the construction of the sign and its supporting framework and other information with respect to the building upon which the sign is proposed to be located, where applicable, so as to determine whether the structure of the building will carry the additional loads and stresses imposed by the sign;
- (d) where the proposed sign is to be erected on public property a copy of the Applicant's written agreement with the City as required pursuant to section 7 of this Bylaw;
- (e) any other information which the development officer may reasonably request in order to determine if the sign meets the requirements of this Bylaw;
- (f) the applicable permit fees as set out in *Development Application Fee Bylaw No. 2008-66*.

20 All drawings submitted for permit shall have the dimensions and scales in metric (SI) units.

- 21 When an application for a sign permit has not been completed in conformance with the requirements of this Part within 6 months after the initial date of filing, the application may be deemed by the development officer to be abandoned.
- 22 Where an application has been made for a sign permit the development officer shall issue the sign permit if the application is complete and meets the requirements of this Bylaw.
- 23 The development officer may refuse to issue a sign permit if the proposed sign contravenes any bylaw of the City or any other applicable law.

Validity

- 24 The development officer shall have the authority to refuse or revoke a permit if:
- (a) the sign or applicant does not comply with any provision of this Bylaw;
 - (b) it is determined that the applicant provided false, inaccurate or misleading information in order to obtain the permit; or
 - (c) the permit was issued in error.
- 25 A sign permit issued pursuant to this Bylaw for a portable sign shall be valid until June 30 of each year.
- 26 No person shall cause, allow, suffer or permit a sign to remain on property owned or controlled by that person without a valid sign permit.
- 27 A current registration sticker provided by the development officer must be displayed on all portable signs and must be affixed in the top one-third of the sign on the end or face closest to the street.
- 28 A permit or registration sticker may be transferred to a subsequent owner of the sign to which the permit relates provided that the City is notified in the form prescribed by the development officer.

Part III Construction Standards**Authority**

- 29 The authority for this Part is clauses 8(1)(b) and (d) and subsection 8(3) of *The Cities Act*.

General

- 30 All signs shall be designed, constructed and maintained in accordance with the minimum standards as prescribed by this Part, whether or not a sign permit is required.
- 31 All signs shall be designed and constructed to resist live, dead and climactic loads. All bracing systems shall be designed and constructed to transfer lateral forces to the foundations. For signs on buildings, the load shall be transmitted through the structural frame of the building to the ground in such a manner that it does not to compromise the structural integrity of the building.
- 32 All signs shall be supported in an adequate manner by supports, braces, and guys of suitable size and strength, and properly fastened.
- 33 All signs and any of their supporting structures must be fastened with non-corrosive fasteners or otherwise have the fastening devices protected from corrosion.
- 34 Signs shall be structurally designed by an engineer and constructed in accordance with that design if they have any of the following characteristics:
- (a) freestanding signs exceeding 3.0 metres in height, measured from grade to the top of the sign, or with a sign face area on one side greater than 3.0 square metres;
 - (b) exceeds 115 kg in weight;
 - (c) projecting signs weighing more than 115 kg or with a sign face area on one side greater than 3.0 square metres;
 - (d) roof signs with a sign face area on one side greater than 3.0 square metres; and
 - (e) signs projecting more than 1.52 metres above the top of the roof or parapet wall.
- 35 Notwithstanding section 34 where a real estate or construction sign will be located on a lot under development or on an active construction site where public access is limited, such signs are not required to be designed by an engineer.

- 36 There shall be a clearance of at least 1.2 metres between any portion of a sign in front of any required opening in the exterior wall face of a building erected on the same property.
- 37 All signs shall be kept in proper repair and appearance and in the case of illuminated or digital signs, the lamps and other electrical or electronic components connected thereto shall be maintained in efficient operative condition.
- 38 No sign structure shall be erected, constructed or maintained in any manner which will obstruct any fire escape or any window or door or opening used as a required means of egress or so as to prevent free passage from a roof to any opening for required light or ventilation.
- 39 No signs other than drive-thru menu signs shall be permitted to transmit sound(s).

Canopy and Awning Signs

- 40 A canopy sign or awning sign shall be maintained with a minimum clearance from the ground of 2.6 metres and no portion of the canopy or awning sign may be closer than 600 millimetres to a vertical line from the curb face.

Digital or Illuminated Signs

- 41 Every digital or illuminated sign shall:
- (a) have all electrical components constructed in accordance with the provisions of *The Electrical Regulations* of the Province of Saskatchewan;
 - (b) be located not less than 1.8 metres horizontally or 3.6 metres vertically from overhead electrical conductors which are energized in excess of 750 volts;
 - (c) have a clearance of at least 1.0 metre between any power pole or other power utility fixture;
 - (d) be directed away from any adjacent residential use;
 - (e) not exceed a brightness level of 0.3 foot candles above ambient light as measured using a foot candle (Lux) meter at a preset distance depending on sign area, using the following formula:

Measurement distance = $\sqrt{(\text{Sign face area} \times 100)}$ (ex. For a 3.0m² sign, the measurement would be taken from 17.3 metres away);

- (f) for digital signs, be equipped with an automatic dimmer function;
- (g) not include a white background;
- (h) on the sign copy area, not contain full-motion video or otherwise give the appearance of animation or movement, including flashing lights or lights programmed to change colours in a pattern or sequence;
- (i) not resemble emergency lights in any way;
- (j) not resemble, interfere with or obstruct the view to traffic signs, signals and warning devices, including at railway crossings;
- (k) for digital billboards, have a static sign copy area for a minimum of six seconds;
- (l) for on-premise signs, including window signs visible from a public right-of-way, have a static sign copy area for a minimum of 20 seconds;
- (m) have an instantaneous transition time between digital images;
- (n) not have sign copy shown in a manner that requires the copy to be viewed or read over a series of sequential messages on a single digital sign, or sequenced on multiple digital displays;
- (o) if any component of the sign fails or malfunctions such a way that it impacts the image quality of the display, the sign shall be turned off until the display is operating as intended.

Inflatable Signs

- 42 Inflatable signs shall not exceed the maximum permitted height limit for a freestanding sign in the same zone in which the inflatable sign will be erected.
- 43 Inflatable signs shall be securely tethered.

Wall Signs

- 44 Where the wall on which a wall sign will be erected is constructed of non-combustible materials, the wall sign must also be constructed with non-combustible materials.

Roof Signs

- 45 Where the roof on which a roof sign will be erected is constructed of non-combustible materials, the roof sign, including uprights, supports, braces and display area must also be constructed with non-combustible materials.
- 46 No roof sign or any part thereof including any supports and braces shall project beyond the exterior surface of the exterior wall of the building to which it is attached.
- 47 Every roof sign shall be erected in such a manner that the support structure, guy wires, braces, and all other secondary supports are not visible from grade, so that the roof sign appears to be an architectural component of the building, unless otherwise approved by the Executive Director.

Projecting Signs

- 48 A projecting sign shall be maintained with a minimum clearance from the ground of 2.6 metres and no portion of the sign may be closer than 600 millimetres to a vertical line from the curb face.
- 49 Where the wall on which a projecting sign will be erected is constructed of non-combustible materials, the projecting sign must also be constructed with non-combustible materials.

Part IV: Sign Location**Authority**

- 50 The authority for this Part is sections 45, 46, 49, of *The Planning and Development Act, 2007*.

Interpretation

- 51 All zones described in this Part shall have the meanings attributed to them in *Regina Zoning Bylaw, 2019 (No. 2019-19)*.

Setback

- 52 Unless otherwise permitted in this Bylaw, no part of a sign shall encroach over any property line.

- 53 Notwithstanding section 52, no portion of a freestanding sign shall be erected within 1.2 metres of any property line or from any building which is on the same property, unless such sign is constructed entirely of non-combustible materials except for the display area and backing.

Prohibited Areas

- 54 In gateway design areas (see Figure 2) a visibility triangle of 40.0 metres, measured from the outside corner of the landscaped area, shall be maintained clear of commercial signage.

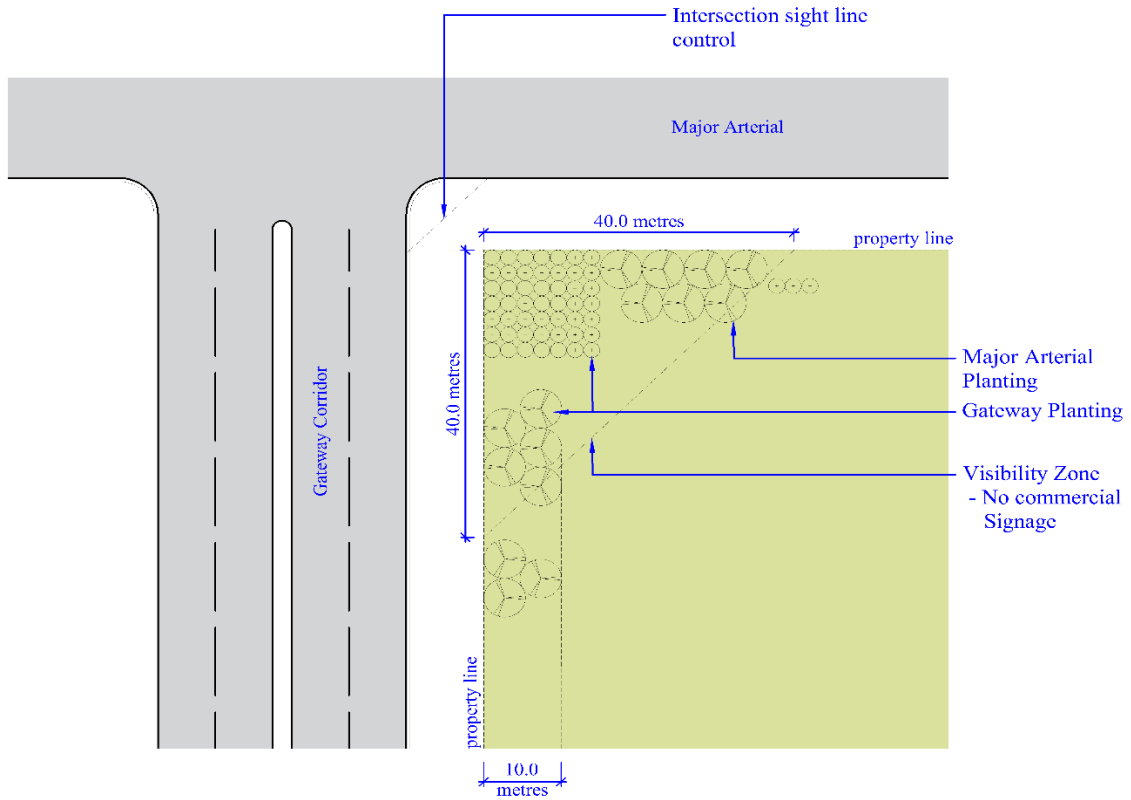

Figure 2: Gateway Design Areas

Figure 3: Major Arterial Intersections

- 55 At major arterial intersections (see Figure 3) a visibility triangle of 30.0 metres, measured from the outside corner of the landscaped area, shall be maintained clear of commercial signage.
- 56 No digital signs, other than those used for Service Trade, Motor Vehicle – Light and Service Trade Motor Vehicle – Heavy land uses as defined in *Regina Zoning Bylaw, 2019 (No. 2019-19)*; shall be permitted within 100.0 metres of any road with a permitted speed limit of 100 kilometres per hour or greater, measured from the closest point of the sign to the edge of the pavement.

Illuminated and Digital Signs

- 57 Digital and illuminated signs shall be permitted only in special, commercial, industrial and mixed-use zones, and in direct control districts where permitted by this Bylaw provided that there is at least 15.0 metres between the sign and any residential use.
- 58 (1) Digital signs, other than those used by Service Trade, Motor Vehicle – Light and Service Trade Motor Vehicle – Heavy as defined in *Regina Zoning*

Bylaw, 2019 (No. 2019-19) are prohibited within a driver's cone of vision or proximity circle as determined in accordance with this section.

(2) A cone of vision takes into account all driving lanes affected by a sign on a given street.

(3) The measurement for the cone of vision shall be a 10 degrees cone starting at 110.0 metres from the traffic signal light, projected in the direction facing the traffic signal light and extending a further 50.0 metres behind the traffic signal light. See Figure 4.

(4) Where a proposed digital sign is outside of the cone of vision but still within proximity to a signalized intersection, a proximity circle will be used to determine whether the sign may impact traffic safety. See Figure 5.

(5) The radius of the proximity circle shall be:

- i. 75.0 metres for arterial streets; and
- ii. 50.0 metres for collector streets.

Figure 4: Cone of Vision

Figure 5: Proximity Circle

Inflatable Signs

59 A maximum of one inflatable sign per lot shall be permitted only in the ML, MH, MLM and industrial zones, provided that it is located at least 15.0 metres from any adjacent residential lots.

Portable Signs

60 Portable signs shall be permitted in the following zones subject to the following conditions:

Table 1.1: Portable Signs		
Land Use Zones	Sign Standards	
	Max. Sign Surface Area	Max. Height
ML, MH, MLM, DCD-D and all Special ¹ and Industrial zones	6.0 m ²	3.2 m
Key: ¹ = Excludes contract zones except as permitted within a contract zone agreement.		

61 Portable signs shall not be erected or displayed within any vehicle parking space required by *Regina Zoning Bylaw, 2019 (No. 2019-19)*.

62 Where there is more than one portable sign on a lot, there must be a minimum 20.0 metres of separation distance between signs.

63 Notwithstanding section 62, where there are two or more portable signs:

(a) on a corner lot; and

(b) positioned at right angles to each other so they face traffic flows on separate streets

they may be placed closer together than 20.0 metres.

64 Portable signs must be located a minimum of 30.0 metres from any freestanding billboard sign.

65 Where a portable sign is multi-faced, each side shall be considered as facing traffic flowing in the opposite direction.

Freestanding Signs

66 Freestanding signs shall be permitted in the following zones subject to the following conditions:

Land Use Zones	Sign Standards	
	Max. Sign Surface Area (Per Side)	Max. Height
All Residential Zones	1.0 m ²	1.8 m
Special Zones ¹	5.0 m ²	4.0 m
ML	10.0 m ²	8.5 m
MH and DCD-D	10.0 m ²	10.0 m
MLM and all Industrial Zones	24.0 m ²	14.0 m

Key:
¹ = Excludes contract zones except as permitted within a contract zone agreement.

67 Freestanding signs exceeding 3.2 metres in height or 6.0 square metres in sign face area must be located a minimum of 15.0 metres from any residential property line.

- 68 Where a freestanding sign is multi-faced, each side shall be considered as facing traffic flowing in the opposite direction.
- 69 When a freestanding sign is located between two buildings, both within 30.0 metres of the sign structure, no part of the structure shall be erected closer to any street line than a line drawn from the corners of the two buildings nearest the street.
- 70 Excluding DCD-Downtown, where two or more freestanding signs are permitted (excluding secondary signs) the allowable surface area of the signs may be combined into one sign.

Billboard Signs

- 71 Billboard signs shall be permitted in the following zones subject to the following conditions:

Table 1.3: Billboard Signs		
Land Use Zones	Sign Standards	
	Max. Sign Surface Area	Max. Height
MH and DCD	Maximum height and sign surface area are the same as for the given sign type (i.e. wall, freestanding, roof).	
MLM and all Industrial Zones		

- 72 Where a portion of a Railway zone abuts any of the zones mentioned in Table 1.3, a billboard may be erected in that portion of the Railway zone. The sign shall be erected along the boundary between the Railway zone and the abutting zone, and shall follow the billboard standards for the abutting zone.
- 73 Where there are two or more billboard signs:
- (a) on the same street; and
 - (b) facing the same traffic flow,
- they shall not be placed closer together than 90.0 metres, measured from the closest point of each sign relative to the other.
- 74 Notwithstanding section 73, at the intersection of two streets, multi- or single-faced signs at right angles to traffic on one street may be situated closer than 90.0

metres to a similarly-positioned sign across the street at right angles to traffic on the other street.

Rotating Signs

75 Rotating signs are permitted in the following zones subject to the following conditions:
