

Good afternoon,

We just wanted to submit our comments on the proposed bylaw changes. This is only a written submission for the June 17<sup>th</sup> public hearing on the proposed Zoning Bylaw. We will not be a delegate at the public hearing.

In regard to the Delegated Authority with the Discretionary Use Application process, North Ridge is in agreement with the proposed revisions. We believe that this will make the application process more efficient, without compromising the importance of diligent deliberation of each application. We appreciate that everyone's time is valuable and believe that this will be a beneficial change. We have also been included in the RRHBA Zone Forward working committee and support their position.

Thank you,

**FREYA MARCHUK**  
Operations Manager
