To whom it may concern
Hello,

I am writting to strongly OPPOSE the new zoning bylaw of 2019, restricting recreation businesses from opperating in industrial zones.

The amount of local companies, families & friends that would be effected is countless. CrossFit Regina has been a huge part of my life for the last 5 years, and this zoning law would force them to have to make the prices unaffordable or close their doors for good.

I cannot understand why the city would approve to close down so many LOCAL business & give Global gyms more business.

My 68 year old grandfather just started here and the amount of progress he has made is incredible & would all go down the drain.

CrossFit Regina has been such a huge corner-stone in my life, not only is it my workout routine, but it's my social life & family.

Please do NOT pass this bylaw.

Sincerely,
Sara Morrison.
