To The City Of Regina,

I would like to state my opposition to the proposed zoning bylaws affecting recreational services in the industrial area.

My wife, daughter, and I have enjoyed attending activities in this part of town for years. These businesses provide wonderful services for the people of Regina, which extend beyond just recreation to make positive differences in the lives of many families.

At the very least, forcing businesses like these to operate in other areas would increase their costs, and therefore increase the costs for the clientele.

In addition, some of these services would not be able to operate at all, or be severely compromised: they require a large amount of space for activities and equipment; they need access to indoor and outdoor spaces; and they create a lot of noise. The industrial area is perfectly suited to their needs.

The proposed bylaw changes would negatively affect these services and the people of Regina. Please reconsider.

Sincerely,
Srdjan Dautbegovic
