

TO MAYOR AND ALL COUNCILLORS,

We are writing in support of the 9th Avenue North Route Motion 20-23 submitted by Councillor Mancinelli. The current designation is dangerous especially between Courtney and Pinkie as well as the noise level it has created. No proper study has been performed (during the busiest time of the year summer when we are trying to enjoy our backyard) and no action has been taken to rectify these issues even after numerous requests. The road is single lane, no shoulders, close to residences.

The issues also fall under the motion made by Councillor Bresciani regarding racing, stunting and Excessive Vehicular noise.

Thank you  
Wendy and Laurie Walter
