Public List of Outstanding Items  
February 9, 2021**

REPORT #:	PPC20-9
DATE TABLED/REFERRED:	June 17, 2020
SUBJECT:	Energy & Sustainability Framework Update
MOTION:	<p>That this matter be referred back to the Administration to return to the Priorities and Planning Committee meeting on September 23, 2020 with the following:</p> <ol style="list-style-type: none"> <li>1. A plan for a forum to be held in Q1 2021 with space for youth and local community engagement;</li> <li>2. Report back to Council by September 30, 2020 on the implementation of Motion 18-1 (autonomous vehicles report due January 20, 2018/Q3 2020) and Motion 18-4 (solar panels report due April 30, 2018/Q3 2020);</li> <li>3. Report on engagement with SaskPower or a plan to move forward without them – what generation potential does the City have through wind, solar and other renewable sources?</li> <li>4. Report on engagement with other cities on best practices from their experience; and</li> <li>5. A project plan to build an Energy and Sustainability Framework that includes the following elements: <ul style="list-style-type: none"> <li>• Details on how City and municipal wide action plans, with specific and aggressive timelines, could forward the commitment of a transition towards a 100% community-wide renewable Regina by 2050;</li> <li>• Details on how building codes, new subdivision design and green building design like LEED standards could be built into the Sustainability Framework;</li> <li>• Details on how planning policies, financial policy, taxation policy and other incentives such as project approval criteria and grants, and other regulatory mechanisms could be built into the Sustainability Framework;</li> <li>• Details on how infrastructure including transportation infrastructure, public transit and other public vehicles, waste management, the new water treatment plant and park and urban forest could be built into the Sustainability Framework;</li> <li>• Details on how platforms for community and resident engagement including engagement by marginalized communities, Indigenous communities, advocacy and neighbourhood planning committees can be built into the Sustainability Framework;</li> <li>• Details on how platforms for effective monitoring of the city's environment and environmental programs could be included in the Sustainability Framework;</li> <li>• Other specifics that this debate has suggested for inclusion in the Sustainability Framework, including a definition of sustainability and a review of equity and collaborative partnerships; and</li> <li>• A preliminary estimate of financial and any other implications associated with this initiative.</li> </ul> </li> </ol>
