City of Regina

All City Councilors

Dear Councilors:

Re: Notice of Motion – Increase Recreation and Leisure Activities for Persons with Disabilities

We understand that a motion is being brought forth requesting City administration to research, consult, engage and explore options for programs and activities that would encourage inclusive and specialized programming for persons with disabilities in the City of Regina.

We would like to add our voice of support for this motion and the potential for these programs.

As parents of an adult with a disability, we are aware of the many challenges and barriers in accessing various programs over the past 20+ years. We believe that programming has continued to improve but believe that a dedicated effort, as noted in the motion, will move things forward and show the leadership that the City of Regina has towards a more inclusive and welcoming community.

We encourage your support for this motion and continuing to move Regina forward as a more inclusive and forward-thinking City.

Regards,

Lynn Ast
