Engagement with Accessibility Advisory Committee

Committee Engagement

Members of the Accessibility Advisory Committee (AAC) were engaged on June 29, 2021 to get their feedback on the sidewalk snow clearing options considered under *the Clean Property Bylaw* (Bylaw) and how City of Regina (City) might strengthen the current Snow Angel Program.

Questions presented to the AAC for their feedback:

1. What do you think is an appropriate timeline for property owners to clear their sidewalk?
2. What do you think are reasonable end conditions for sidewalk snow clearing?
3. What criteria should be considered for someone to be eligible for programs that support sidewalk snow clearing such as the Snow Angels program?
4. What barriers do you anticipate Regina residents will encounter with clearing their sidewalks?
5. Are there any suggestions for additional supports the City can offer in conjunction with Snow Angels?
6. Do you know of any other community led initiatives that assist people with maintenance tasks such as snow removal?

Summary of Feedback

Feedback received during the meeting included the need to strengthen the Snow Angels program to allow for snow clearing and access to the Sandbox Program.

In addition, members of the AAC supported enforcement in issuing a fine and clearing the sidewalk at the property owners' expense for those who do not clear the snow from their sidewalks as per the provisions of the Bylaw. This would bring consistency in sidewalk snow clearing and would help people with accessibility challenges.
