

Public Consultation Summary		
Response	Number of Responses	Issues Identified
<i>I support this proposal</i>	4	<ul style="list-style-type: none"> • Support the need for another school (x2) • Support the community/ recreation space • Benefits to the community overall
<i>Accept if features were different</i>	1	<ul style="list-style-type: none"> • Location of proposed school and school zone
<i>Completely opposed</i>	1	<ul style="list-style-type: none"> • Premature for additional greenfield development • Location of the proposed school

City Administration Responses:

1. Issue: Location of proposed school and school zone

The school site design has not been finalized. Considerations will be made to ensure the safety of children and other pedestrians and drivers. These concerns do not impact rezoning the parcel.

2. Issue: Premature Greenfield Development

The proposed rezoning does not bring another greenfield neighbourhood online. The need for a new school in the Harbour Landing area has been demonstrated and City Council amended the Official Community Plan in late 2021 to waive the phasing requirements for the school site only.
